Elizabeth A. Johnson Commissioner

April 3, 2009

Dear Kentucky Medicaid Provider:

This letter provides important information about the re-implementation of the Retrospective Review of DRG claims. All hospital claims paid under the prospective payment process are subject to retrospective review by DMS. The DRG Retrospective Review process has been on hold since June 2008 but will resume in the near future. This letter is to review the information originally presented during the initial orientation sessions.

Retrospective Review Process

EDS has contracted with SHPS, a Utilization Review agency, to perform retrospective reviews on DRG claims for DMS. Each month, paid claims are selected for review under the retrospective review program. The selection is not random; claims that fall into specific categories will be targeted. Some of these categories include:

- Readmissions
- Short Length of Stay
- Target DRGs

If we select claims from your facility, SHPS will contact you by letter. If you have less than 15 records, you will receive a Medical Records Request letter from SHPS. You have 30 calendar days from the date of the medical record request letter to submit copies of the requested medical records to SHPS. If there are 15 or more records selected for review, you have the option to select an on-site review.

Requested medical records that are not received by SHPS within the 30 days timeframe will automatically receive technical denials. Technical denials are not subject to appeals.

On-site Review Process

As stated above, if there are 15 or more records selected for review, SHPS will send a letter notifying your facility of the need to contact SHPS to schedule an on-site retrospective review, if that is your choice. Nurse reviewers will review a hard copy of the selected records on-site. The nurse reviewer requires the appropriate environment to complete the chart review process. Cases that have concerns will be referred to a physician reviewer. For those cases with concerns, SHPS will request that copies of the medical records be submitted to SHPS for further consideration.

Page Two

Review Concerns

Nurse and physician reviewers examine the medical records of the cases selected for review for:

- Medical Necessity
- Billing Error
- Coding
- Quality

Claims can be denied for Medical Necessity, Admission Errors, DRG Errors, Billing Errors or Coding Errors. Claims found to have Quality concerns follow a separate Quality Review Process that will be covered in a separate letter to be sent in the near future.

Initial Denial Notifications

If any claims are denied, you will receive an initial "denial package" from Kentucky Medicaid's Fiscal Agent, EDS, within 90 days of the original record request letter. The denial package comprises a denial notification letter for each case that is denied and a report summarizing all the denials from your facility for that review month. A copy of the letter and report is also sent to DMS.

DO NOT REBILL FOR ANY CLAIMS BASED ON THIS INITIAL DENIAL NOTIFICATION

Appeals Process

Once you have received the initial denial package, you have 30 calendar days from the date on the denial letters to request an appeal of a denial. The denial letters include instructions on submitting a request for an appeal. A second peer-matched physician will review claims that are appealed.

Final Denial Notifications

Within 30 days of the last day of the appeal time-frame, you will receive a final denial package comprising of:

- Reconsideration letters for each case that was appealed with the results of the appeal;
- A Final Hospital Denial Report; and
- A cover letter on SHPS letterhead notifying you recoupment procedures will be initiated immediately as of the date of the letter.

Upon receipt of this Final Notification, you may correct billing and coding errors and resubmit the claim if appropriate.

DENIED CLAIMS CAN BE RE-BILLED ONLY AFTER RECEIVING THIS FINAL DENIAL NOTIFICATION.

Recoupment Process

If an overpayment or incorrect payment is identified, recoupment will be made automatically from the next payment cycle. The remittance advice will show the recoupment amount. Please note that recoupment after retrospective review is not subject to appeal.

Page Three

Relationship to Precertification

The provider community raised concerns regarding the relationship of the precertification process to the retrospective review process. It is important to keep in mind that precertification is not a guarantee of payment.

During the retrospective review process, the nurse reviewers will check the accuracy of information given when the stay was pre-certified. If there is conflicting information, then the admission undergoes a medical necessity review, and the appropriateness of the setting of the service is reviewed.

Overview of the Process and Timeline

The retrospective review process is an on-going monthly process. The timeline and deadlines are tied to the calendar months. The timeline for the January 2009 Review month is provided here as an example.

January 2009 Review Month

Danuary 2009 neview World	
Date	Stage of Process
December 1, 2008	Providers receive Medical Record Request Letters
December 30, 2008	Deadline for submission of requested records to SHPS
January 2009	Nurse reviewers conduct review of medical records (including on-site reviews)
February 2009	Referred cases are reviewed by Physician Reviewers; and Initial Denial Letters and Reports are prepared
February 28, 2009 (or sooner)	Initial Denial Packages are mailed to Providers
March 31 (or 30 calendar days from date on denial letters)	Requests for appeal of denied cases are due
April 2009	Appealed cases undergo second peer-matched Physician review
End of April (or 30 days After Appeal Deadline)	Final Denial letters and reports are mailed to providers

We hope this information is helpful. If you have any questions or concerns, please call (502) 564-5183.

Sincerely,

Slizabeth Johnson 11dd Elizabeth A. Johnson

Commissioner
